

I want to thank the members of our Student Leadership Advisory Board who participated in last weekend's community service project. Saturday was National Youth Service Day and a few of our student leaders helped build the Youth United House for 'Habitat for Humanity' in Waukegan. The house is in the Carter Woods subdivision at Dugdale and 14th streets—the only Habitat subdivision in the nation. I am proud of our student leaders for taking a strong interest in the welfare of our community.
